

## Allied Health and MHPN – a growing connection

The Mental Health Professionals' Network supports primary care practitioners to collaborate & deliver integrated primary care more effectively via its **two platforms**:

### Interdisciplinary networks

- 385 located across the country
- Networking & peer support
- Often cover chronic disease/mental health interface
- Learn about other disciplines, and help others learn about yours.

### Online professional development

- 40+ webinars produced. Each features a facilitated panel discussion of a casestudy
- Free access to watch live or view a recording
- Provides rural and regional access to speakers often only available in city conference settings.

**Benefits:** • Better informed referrals • Improved referral pathways  
• More efficient work practices • **Improved consumer outcomes**
