Chief Allied Health Officer for Australia

The proposed role will be the key Commonwealth adviser on allied health working alongside the Chief Medical Officer and Chief Nurse/Midwifery Officer

- Fulltime position with AHP background
- Contributing to a range of allied health, health system, health workforce and education issues
- Providing high level policy advice to the Minister for Health, the Executive and staff within the Department of Health
- Contributing to the Department's work on research, quality of care, the burden of chronic disease and an outcomes focussed health system
- Taking a leadership role at national and international levels and to build strong and enduring working relationships with a wide range of stakeholders
