Concerns

"Potential for clinicians to become less involved with patient's"

"Will take time away from pharmacists and affect workflow and patient care"

"Reliance on a electronic system may cloud health care professional's clinical judgement"

"Increased access to a patient's record and having the medical information all in once place"

"Technology will help us progress as an industry"

Benefits

"Analyse the business early, don't just practise the norm"

"There has been extremely good support for me"

"It's going well. Better than expected! More people embraced it than I anticipated"

"Ready to go!"

Readiness

Our Digital Future

IMAGINE WHAT'S POSSIBLE...
